

Sureclean Health & Safety Policy Statement

Statement of Intent

It is Sureclean policy, so far as reasonably practicable, to ensure the health, safety and welfare of its employees whilst at work, and to have due regard for visitors to our sites and members of the public, either invited or uninvited. This is a statutory duty under the Health and Safety at Work, etc Act 1974 and supporting regulations.

Sureclean employees have a statutory duty to take reasonable care for the health and safety of themselves and others who may be affected by their acts or omissions at work and to co-operate fully with the company to meet its duties.

To enable these duties to be carried out, it is our intent to ensure that responsibilities for health and safety matters are effectively assigned, accepted, and fulfilled; consistent with good practice throughout the company at all levels within the organisational structure.

The company so far as reasonably practicable shall:

- Provide and maintain safe and healthy working conditions, plant, equipment and systems for all our employees
- Provide and maintain safe workplaces with safe access and egress to the workplace
- Ensure storage, handling, usage and transportation of articles and substances is safe and without risk to health
- Provide all employees with information, instruction, training and supervision as necessary to carry out their duties in a safe manner
- Ensure continuous risk assessments are carried out
- Ensure monitoring activities are undertaken to maintain agreed standards

With this intention, the company shall provide funds, materials and staff, together with the necessary information, instruction, training and supervision to provide a safe working environment.

The Safety Manager is the competent person, as required by the Management of Health & Safety at Work Regulations 1999. He/she shall assist the company in undertaking the measures needed to comply with relevant statutory provisions. The company shall provide the Safety Manager with sufficient authority and resources to implement this policy.

The Safety Manager shall provide and maintain effective procedures for consultation and communication between all levels of management and employees on all matters regarding health and safety. All personnel on site are required to attend the Monthly Safety Meeting to ensure they are involved in the consultation and communication process.

Whilst it is a statutory duty to comply with regulations, these are seen as a minimum requirement only. Sureclean expects the full co-operation of all employees to improve standards in all aspects of health and safety at work.

All employees have my full support in the implementation of this policy.

John M. Barron

Managing Director (Responsible for Health and Safety)
